The mission of the Mossavar-Rahmani Center for Business & Government is to advance the state of knowledge and policy analysis concerning some of society’s most challenging problems at the interface of the public and private sectors. The scope of its work ranges from the local to the global. Drawing on the unparalleled intellectual resources of the Kennedy School and Harvard University, and bringing together thought leaders from both business and government, the Center conducts research, facilitates dialogue, and seeks answers that are at once intellectually rigorous and policy relevant.
