Enel North America (ENA), which develops, owns, and operates renewable energy projects in wind, hydro, geothermal and biomass in the United States and Canada, is recruiting a policy intern who will work in its Washington DC office for 8 to 10 weeks between the months of June and August 2010. The intern will assist in research, analysis and outreach efforts in policy areas pertaining to renewable energy development in the United States, particularly at the state and regional level. Compensation will be determined on the basis of the candidate’s qualifications.

1. Job Responsibilities

Analysis and Research

The intern will follow policy, legislative, and regulatory developments relevant to ENA’s project portfolio, including but not limited to: state and regional climate change legislation (AB32, RGGI, WCI, Midwest Accord); state policies in renewable portfolio standards (RPS) and renewable energy certificates (RECs) trading (especially in California); siting policy for renewable projects; transmission planning, siting and cost-allocation; State-level incentives including tax credits, feed-in tariffs, loans and grants. The intern may also be requested to report and summarize industry and academic research pertaining to regional renewable industry growth projections, policy design, and regulatory process.

Outreach and Representation

In carrying out the analysis and research in areas mentioned above, the intern may be requested to participate and if needed represent ENA in government proceedings, hearings, and deliberations. The intern will be expected to provide summaries of these meetings.

Filing, Internal Reporting and Communication

The intern will assist in the drafting of company documents including regular policy and regulatory updates as well as participate in meetings within ENA.

2. Requirements

A working knowledge of energy policy and regulation is strongly recommended. Strong communication (written and oral) skills as well as demonstrable teamwork skills essential. Advanced degree (or expected) in public policy, economics or law preferred.

3. Contact Point

Please send cover letter and resume to the following email address. Recommendation letter and/or transcript is optional.
